# A30

## All-In-One Video Conference Camera

**Superior Audio Quality****Microphone & Speaker****Doc Cam & Webcam****13 MP****4K Ultra HD****23X Digital Zoom****AI Image Rotation****Auxiliary Microphone &  
USB Camera Inputs****HDMI & USB  
Outputs****5-Year Warranty**

The A30 is a multi-functional and all-in-one video conferencing camera that enhances collaboration by combining a web camera, document camera, microphone, and speaker! Perfect for remote work and with easy-to-use plug-n-play connectivity, the A30 speaker connects to computers and monitors to provide clear audio up to 20 feet away. Users can seamlessly pivot between doc cam and webcam modes without having to switch devices, while the built-in microphone and speaker minimize set up time and can support small work groups, demos, live streaming, and more. The A30 allows connection to wireless microphone via line in for versatile recording.

## Superior Audio with AI Technology

The integration of the camera, microphone and speaker minimizes setup time and optimizes the audio and video experience. The high-quality AI audio technology, our exclusive algorithm, produces clear sound with echo cancellation while minimizing background noise, creating a fantastic collaboration experience! Great for remote work, small work groups, demos, live streaming, and special needs use cases.

## Multipurpose Conference Audio Solution

The A30 microphone and speaker enhance collaboration and create greater meeting equality. It connects to computers and monitors to provide clear audio up to 20 feet away, amplifying the sound for all meeting participants. The audio recording capabilities support small work groups, demos, live streaming and more. The A30 allows connection to wireless microphone via line in for versatile recording.

## 4K Room Camera Quality

The 13-megapixel camera delivers impressive resolution in 4K, allowing the A30 to capture all details perfectly.

## Flexible Camera Angles

The extendable arm elongates and folds to capture multiple angles. The smart design also includes an adjustable camera head, LED light, and rotatable base.

## Picture-in-Picture Interface

The A30 has both HDMI and USB outputs for video streaming. Presenters can connect to another USB camera for picture-in-picture image when using the software. Compatible with all major video-conferencing platforms.

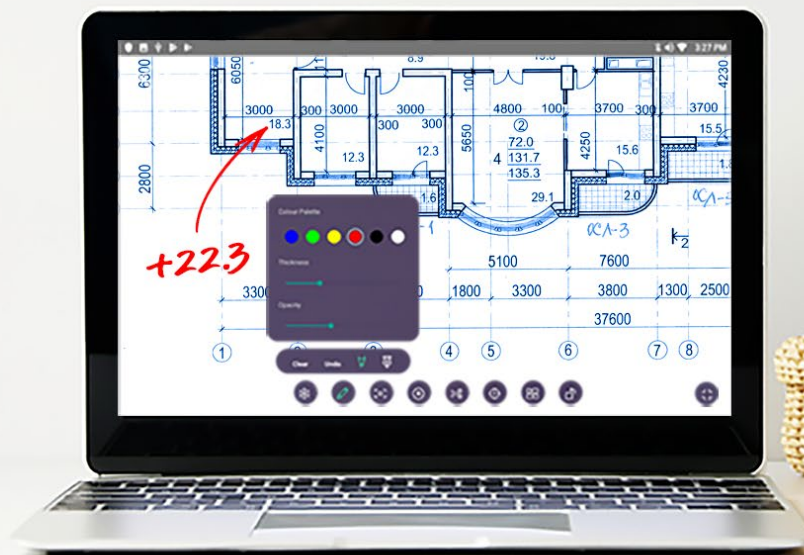

## Video Conferencing or Doc Cam Modes

The automatic image rotation allows a seamless experience to switch from conference camera mode that works with all popular video conferencing platforms, to a document camera and back! The image flips automatically when uplifting the

## Compatible with AVerTouch software

Simply connect your A30 with one touch to immediately start sharing content and annotate as you go. With its easy and intuitive functions, as well as cloud sync to provide automatic backups of your annotations, captures, and recordings, this software will help enrich the overall experience with unprecedented interactivity.

With the A30, you can display...

-  Film slides / Filmstrips
-  Real-time movements
-  Documents
-  3D objects
-  X-rays

Show images to your audience through...

-  Interactive flat panel
-  TV monitor
-  Projection screen
-  Digital monitor
