

Affordable. Reliable. Yours.

AVer H300/H100
HD Video Conferencing

AVer became theirs because it's affordable and reliable.

Hi, I'm Matt. I lead a growing global athletic shoe company. Critical to our success has been our ongoing **face-to-face interactions** with colleagues, vendors and clients. But with the tough economy, we've had to drastically reduce travel costs. To compensate we'd tried various communication tools, but wasted time on fuzzy web video and telephone. Then Steve brought in the **AVer**. Now within five minutes I have all the necessary people and information in one place, face-to-face. It saved us time and money. It has become our new sales meeting and even our new virtual assistant.

I'm Steve, the IT director at Matt's company. I had been searching for a solution to our budget crisis. I knew video conferencing was one alternative to traveling, but most room-based solutions I knew about were pricey, hard to use and a hassle to get support for. Imagine my surprise when I found a quality solution that was so affordable, I was able to get 4 AVer systems for the price I would have paid for one from the other brands. Even more, they came with a **two-year standard warranty**, one year of advanced replacement, two way shipping, and people (not machines) answering the phone. Affordable, reliable, and it's mine!
Choosing AVer was a no-brainer.

The entire team can collaborate all at once
Multi-party Conferencing

I don't have to worry if my clients have other VC brands
H.323 Standard

No more fuzzy video
720p HD Video

I can always review what everyone said
Meeting Recording*

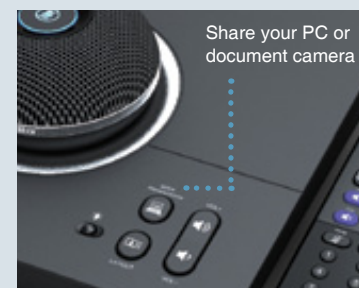

We can make and see changes as they happen
Content Sharing

Why AVer?

Affordable 1/4 the cost of competitive solutions with the best features

Reliable Industry's only 2-year standard warranty with 1-year of advanced replacement and 2-way shipping

Yours Affordability and reliability with premium features like multi-party conferencing, content sharing, and meeting recording make AVer an ideal video conferencing solution.

AVer believes in innovation and is very excited to provide businesses of all sizes with a high quality, affordable video conferencing solution. Our years of success in visual technology have helped us design a solution that makes face-to-face collaboration a right, not a privilege.
