AVer charge and sync carts iPads, Androids, Chromebooks and beyond

Form + Function + Value

AVer TabSync

32 device, tablet agnostic sync and charge cart that sets up in under 5 minutes

Tablet agnostic: Charges 32 iPad, Android, Windows tablets with iPad sync while LED indicator lights display charging and sync status of all your devices.

Under 5 minute setup: Pre-installed USB extension cables in the front of the cart allow for fast cabling of 30-pin, lightning, micro USB connectors, or whatever comes next. Whether cabling for the first time, or replacing connectors as your tablets change, TabSync makes it fast and easy.

Extra wide slots: At 0.96" slot width, TabSync easily fits your tablets while in almost any protective case.

Extra storage and power: Sliding drawers provide space for extra components such as cables or keyboards, while additional outlets provide power for laptops, document cameras and more.

Safe and secure: Lockable slot-in doors with a 3-point steel locking mechanism keep tablets safe, while the durable steel construction adds durability and security.

AVer TabChargeCT

36 device, Chromebook, Tablet and Netbook charge cart

Built for 36 devices: Chromebooks, iPads, Android tablets, or Netbooks (up to 13" screen).

Smart and safe charge: Set the default, or schedule charging (day/time/duration) to avoid peak power times, charge overnight, or whenever most convenient. The built-in timer charges one row (12 devices) at a time, at 15-minute intervals before starting the next row to ensure an even charge.

Advanced cable management: TabChargeCT accommodates a variety of different size and shaped AC adapters, set in individual compartments for neat and organized cable management.

Easy device access: Sliding shelves make storing and removing your devices effortless, reducing the need to bend down and reach inside.

Durable and Secure Storage: TabChargeCT's rugged construction easily withstands day-to-day classroom use and includes a 3-point locking mechanism that provides added security.
