Introduction

This is your guide in setting up AVerMedia® AVerVision software for Mac.

The bundled AVerVision software enables you to record video or capture still image of your presentation into your Mac with the AVerMedia AVerVision document camera.

With the Basic and Advance panel, you may also operate AVerVision document camera and adjust your presentation screen setting using this software.

Step 1 Check if the computer meets the minimum system requirements

☐ PowerPC G4 1.25 GHz or above
☐ MAC OS 10.3.x (Panther), or 10.4.x (Tiger)
☐ 256 MB of RAM

Step 2 Install the AVerVision Application
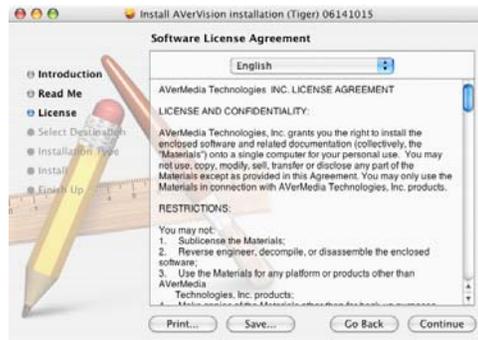

To install AVerVision Application:

1. Place the Installation CD into the CD-ROM drive. Double click the CD icon when appears.   (Note = version no. may be different with updated version).

AVerVision060614

2. Go to Mac folder. Select and double-click **Panther** for Mac system version 10.3.x or **Tiger** for Mac system version 10.4.x. and follow the on screen instruction.

3. Read the Software License Agreement and click **Continue**.

E-1

4. Click **Agree** to accept the agreement and continue the software installation or **Disagree** to cancel the software installation.

5. Choose the target volume to install the AVerVision application then click **Continue**.

6. Click **Install** to start installing the program.

7. When the installation is completed, click **Close**.

8. You may now use the AVerVision document camera with the AVerVision application or use it as a USB camera.

Step 3   Using the AVerVision Application

To run the application, in **Finder** menu bar, select **Go** and click **Application**.
Then double-click **AVerVision**.

📄 Before running the AVerVision software, make sure the AVerVision
document camera is connected to the computer USB port and
turned **ON**.

AVerVision User Interface

The AVerVision Menu bar allows you to hide/show the drawer and the view
control panel, and view the video screen in fullscreen or window mode.

➢ To open/close the drawer, click **Window** > **Toggle Drawer** in
AVerVision menu bar or press ⌘**D**.

➢ To view full screen on the monitor or to switch back in window
mode, press ⌘**F**.

➢ To display/hide the quick panel, press ⌘**V**.
