HUB30

4x2 USB/HDMI BYOM Switch

- 4K Video Output
- USB-C PD Powering
- Support Dual Screen Display
- Multi-Camera AI Auto Switching
- Multiple Connection Ports

Introducing the HUB30 *— a 4x2 BYOM HDMI/USB switch built to bring flexibility and intelligent collaboration to modern meeting rooms. Designed for new installations or to add BYOM to existing MTR, Zoom, or other setups, it delivers a complete, single-branded solution without costly subscriptions. With 100W USB-C charging, two sources, and wireless sharing through AVer Room Management Software, users can connect and switch devices effortlessly. ConnectAI enhances meeting equity with intelligent speaker recognition when paired with AVer cameras, and the CP10 G2 touchscreen panel enables seamless control of the room and AVer peripherals.*

BYOD/BYOM Made Easy

Support any meeting, in any room, with HUB30's 4x2 USB/HDMI switch and multi-port connectivity including HDMI, USB-C, and DisplayPort. Dual 4K output enables expanded displays, while 100W USB-C Power Delivery keeps laptops charged through extended sessions—ensuring seamless workflow in corporate boardrooms, hybrid spaces, and AV environments.

Intelligent Meeting Equity with ConnectAI

Paired with AVer cameras, ConnectAI enhances collaboration by recognizing active speakers and presenters, ensuring every participant is clearly seen and heard. This AI-driven experience delivers a more inclusive and equitable meeting environment.

Smart Multi-Camera Switching

Instantly switch between two AVer cameras via USB+IP or IP* using advanced AI algorithms for dynamic, multi-angle coverage. Ideal for hybrid meetings, live streaming, and video production, it enables smooth transitions and automatic camera control for a broadcast-grade experience.

**NOTE: IP connection supports since firmware 0.0.0000.18*

Wireless Content Sharing Engaging Presentations

Wirelessly share content through AVer's Room Management Software for fluid transitions between speakers and devices. Create compelling presentations and professional video conferencing experiences without cables—enhancing collaboration and communication across any meeting environment.

Dual Display & Multi-User Flexibility

Boost productivity with true dual 4K display support, enabling extended, mirrored, or independent content across two screens. Ideal for multi-presenter meetings or side-by-side comparisons, the HUB30 allows two devices to stay connected and seamlessly toggle control—perfect for enterprise and education environments.

Seamless Touch Control with CP10 G2

Enhance room control with the AVer CP10 G2 touch panel, offering rapid source switching, precise volume management, and customizable presets. This intuitive interface streamlines meetings and delivers unified control of the HUB30 and connected AVer peripherals across any collaboration space.
