

# EZManager 2

Upgraded USB CAM Central Management Software

## Remote management made easy

AVer EZManager 2 is an easy-to-use, intuitive, and efficient central management tool specially designed for all AVer USB video products. This updated version features an improved user interface so you can manage AVer devices quickly and easily. Download AVer EZManager 2 now.

## Upgraded intuitive interface

You can flexibly manage and control AVer USB devices via any user interface simply by opening EZManager 2 in your preferred browser and entering the central PC's IP address. AVer EZManager 2 intuitive and responsive user interface displays the device name, address, model, firmware version, and status.

## A comprehensive approach to IT management

- Manage AVer devices quickly and easily.
- Locate multiple devices and view device status in real-time.
- Remotely manage and upgrade firmware.
- Ensure unauthorized viewers can't tamper with settings.
- Secure information with an edge server.

## Scalable

EZManager 2 is one powerful and well-organized tool for centrally managing AVer USB video conferencing products in multiple locations. Whether you manage 10 or 10,000 cameras, EZManager 2 is the ideal solution for technicians, service providers, and enterprise deployments. AVer EZManager 2 offers easy-to-use scalability, no matter how many rooms and devices you manage.
