

# M15W

## Wireless Multifunctional Camera

WINNER  
2019 AWARDS  
of EXCELLENCE  
TECH & LEARNING

The new AVer M15W is the versatile Swiss army knife of wireless cameras to empower educators and students to share, discover and learn. Designed to meet the multifunctional needs of the modern classroom, it features WiFi, HDMI and USB connectivity, 23x digital zoom, 4K output for the sharpest picture, wide shooting range, mechanical arm and rich 13 megapixels to capture fine details as a classroom document camera.

*Wireless that works!*

- 4K Output
- 13MP Camera
- 23x Digital Zoom
- 3Yr Warranty

### True distance learning solution

Want to stream and share your lessons with other classes and schools live? The high definition resolution with built-in microphone supports integration with Skype or Zoom applications, while the compact design and rotating camera head allows you to place and point the camera anywhere in the room.

### Extremely compact design

With its fully collapsible and compact design, the M15W document camera is perfect for space-constrained classrooms. Easily store or transport it to anywhere in a school.

### Connect Your way!

The M15W includes an on-board battery and WiFi connectivity to allow complete freedom to move and share around the classroom. Multiple wired connection options such as HDMI and USB provide additional flexibility for many device types.

### Software is as simple as one touch

With our new AVerTouch software it's never been quicker and easier to go from set-up to showtime. Build and edit new creative content with powerful multitasking and editing tools and save to the Cloud with a simple click.

## Connect wirelessly with Peer-to-Peer WiFi

With the Peer-to-Peer (P2P) WiFi technology, the M15W creates a direct WiFi connection to your computer (Win10/MacOS)! This dedicated connection ensures maximum performance and reliability without interfering with your existing school or work WiFi or Ethernet connection(s).

## Amazing clarity and coverage

Showcase vivid details in your presentation and create a captivating experience with the document camera's 4K output at 60 fps and 23x digital zoom features. The substantial 16.77" x 12.32" shooting area allows you to capture and share large documents and objects like never before!
