

EZManager

USBCam Central Management Software

Easy to use

AVer EZManager is an easy-to-use and efficient central management tool specially designed for use with all AVer USB video products. Locate multiple devices, remotely manage firmware or PTZapp software upgrades, control and change settings, show connection status, as well as backup and restore camera configurations are some of the features included in EZManager.

Scalable

EZManager is one powerful and well-organized tool for centrally managing AVer USB video conferencing products in multiple locations. Whether you manage 10 or 10,000 cameras, EZ Manager is the ideal solution for technicians, service providers, and enterprise deployments. AVer EZManager offers easy-to-use scalability, no matter how many rooms and devices you manage.

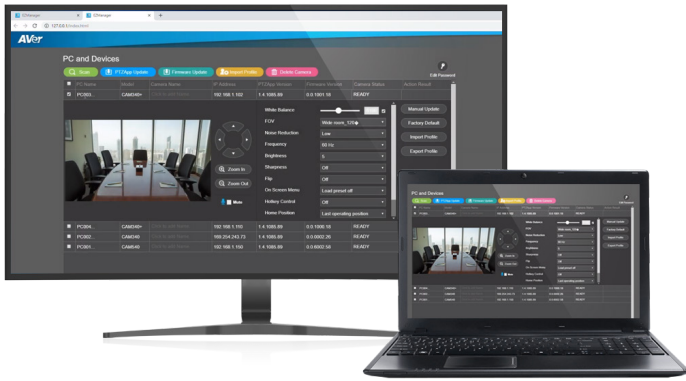

Huddle Room
