

This diagram illustrates the setup of a meeting room for video conferencing. It shows a room with a large conference table, chairs, a window, and a potted plant. The room is equipped with AVer cameras and a network switch. The network switch is connected to a Switch Network, a MT800N, and an Endpoint Room PC. The AVer cameras are connected to the network switch via PoE (Power over Ethernet) connections. The diagram also shows the placement of a Ceiling Microphone and a Room Controller.

Large Conference Room / Boardroom

● USB ● Network ● HDMI

Devices CAM/TR/PTZ cameras, MT300N or MT500
