

50-70"/75-98" Wall Mount Installation Instructions

50-70"/75-98" Universal Wall Mount			
No.	Description	QTY/PCS	Position
①	Horizontal beam bracket of 50-70"/75-98" universal wall mount	1	
②	Vertical beam bracket of 50-70"/75-98" universal wall mount	2	
③	PE bag for VESA wall mount (0.04mm*150mm*190mm)	1	To contain the accessories
④	M 8x80mm expansion screw (blue zinc plated)	8	For wall mounting
⑤	M4 x10mm round head machine screw with spring washer (black zinc plated)	2	Vertical beam bracket + horizontal beam bracket
⑥	M5x100mm screw	2	Vertical beam bracket + horizontal beam bracket

Wall mounting steps:

1. Take the machine out of the packaging box. Remove the two M4x10mm screws using a screwdriver to take off the horizontal beam bracket, as shown in Fig. A;

Fig. A

2. Take the M5x100 screws out of the accessory bag; and pre-lock them into the vertical beam bracket with a depth of 2mm-10mm, as shown in Fig. B;

Fig. B

3. Mount the horizontal beam bracket onto the wall: horizontally place the horizontal beam bracket against a proper wall, and use M8*80mm screws for mounting, with 4 screws in the upper and lower parts, respectively. Customers can choose the screw intervals depending on the wall condition. Also, it is suggested to make Φ10mm holes in the wall. Use nuts to fix tighten the screws. When making holes in wall, use the horizontal beam bracket to pre-position 8 screw holes on the wall, and use a pencil to mark the hole positions; then use an impact drill to make holes, the suggested depth of which is over 85mm. See Fig. C;

Fig. C

4. Mount the machine onto the horizontal beam bracket, as shown in Fig. D;

Fig. D

5. Fix the wall-mounted machine: Use a long screwdriver to tighten the two M5x 100mm screws in the direction shown below until the horizontal beam bracket is reached, as shown in Fig. E;

Fig. E

Tools:
Impact drill, pencil, screwdriver, wrench.

IMPORTANT SAFETY INSTRUCTIONS

Improper installation may cause property damage or personal injury. If you do not understand these directions, or have doubts about the safety of the installation, contact Customer Service or call a qualified contractor. AVer is not responsible for damage or injury caused by incorrect installation or use. After reading the manual, please keep it handy for future reference.

Safety information

Warning

The product should be installed by a qualified professional specified by the retail store. Production installation by non-qualified personnel is very dangerous and may cause personal injury.

When moving or replacing the product after installation, contact a qualified installer specified by the retail store. Installation or movement of the product must be carried out by a skilled professional. If an unqualified person moves and installs the product, it may cause safety risks.

Be sure not to hang the power cable and signal cable on the back of I/P when installing the wall-mounted I/P. Damaged cables may result in fire, electric shock, or damage to the product.

The product should be installed where its weight can be fully supported. If the product is installed on a weak surface, the product may fall, causing injury.

Do not hang on this product. Protect the product from severe impacts after the installation. The product may fall and cause injury.

This product contains small items that could be a choking hazard if swallowed. Keep these items away from young children.

Caution

Follow the instructions in this manual to product properly. If you do not follow these instructions, the product may be installed incorrectly and cause serious injury or the product may become damaged.

When installing the product, first check that the wall is flat and strong enough. Use the anchors and screws provided. If you use anchors and screws that are not specified by the manufacturer, they may not hold the weight of the product, causing safety issues.

Keep this product away from sprinklers, sensors, high-tension wires and power sources. Do not install it in a location where vibrations or impacts are likely to occur.

To install or adjust the height of the product, two or more people are needed. If you try to install or move the product alone, it may fall and cause injury or the product may become damaged.

Do not attempt to install or assemble this product if the product or hardware is damaged or missing. In the event that replacement parts or hardware are needed, please contact Customer Service.

When drilling holes into the wall, make sure you use a drill and drill bit with the specified diameter. Ensure that you also follow the instructions regarding the depth of the holes. Otherwise, the product may be installed incorrectly and cause safety issues.

Do not clean the product with a wet towel, and do not place a heater, or humidifier beneath it. Moisture, steam or heat permeating into this product may result in fire, electric shock or product damage.
