OPERATING DEVICES / SYSTEMS	**Win OS 7, Win OS 10, Win OS 11**
Related Software	**Wi-Fi Dongle driver_5.0.9 / Uninstall dongle driver**

V1.3.2061.0 Release date: Apr 14 2022	**WHAT'S NEW & Improved** - **[New] Annotation tool:** More tools to assist the DocCam live view teaching: Line/Text/Shape. - **[New] Presentation tool:** More tools to assist the DocCam live view teaching: Spotlight/Visor. - **[New] Transparent Screen (NEW AI function):** Transparent mode shows content without being blocked by the user's hand. - **[New] Camera record:** User can record AVer DocCam screen only (without annotation). - **[Improvement] Plug & Play for USB DocCam:** Automatically skips main page selection step to enter active camera live stream.
	BUG FIXED **Fixed –** Web page pops up while users do not allow the Google drive permission in Google login page. (Win10/11) **Fixed –** Camera password setting is not accessible in Split-screen mode. Users can access the camera without the password. **Fixed –** If you do not connect to network before the camera pairing settings, it may cause the connection failure issue.
	Issues **Main tool bar disappeared automatically while selecting PIP camera icon in split-screen mode.** We are working on the fix for the next release.

Known issues	• **UI display issues in 4K resolution.**

	• Annotation cannot follow the camera image rotation. • In Google drive library users cannot edit the files, but the file check button is still enabling users to select.
Limitation	• Cannot set WPA-PSK network in wireless camera. We currently only support WPA2-PSK for Wi-Fi setting in AVerTouch. We are working on the additional format to include the WPA-PSK. • Does not support extended display screen, it cannot be recorded or captured. • Sometimes camera cannot be connected based on your network status. Please check your network and reconnect it again. • Privacy policy and terms of service page pop out the empty webpage if you do not connect to the Internet.
