

# AVer TabCam

Wireless Streaming Camera

## Inspire and engage your digital natives

Your students are engrossed with tablets, cell phones and laptops in their everyday lives, innately comfortable with digital communication and mobile anytime, anywhere information access. Integrating these devices into their curriculum enhances their ability to relate, respond and engage with classroom material and lesson content. Adding real-life, real-time content to these devices further enhances lesson concepts by relating content to actual curriculum.

- **Wirelessly stream live video** to your iPad, Android Tablet or PC/MAC
- **Keep your mobile device mobile**, leaving you free to facilitate curriculum
- **Create rich, engaging lessons** combining real content with digital content
- **Record full lessons** including video, digital content, annotation and audio
- **Instantly upload lessons** to Dropbox, YouTube, Facebook and more

## Why choose the TabCam?

### Enhance mobile, digital curriculum

TabCam keeps your mobile device mobile by wirelessly streaming live, physical classroom content to your iPad, Android Tablet or PC/MAC laptop in real-time with an included app that enables students to fully interact and engage with the curriculum.

### Keep your mobile device mobile

As a wireless camera, TabCam can be positioned anywhere, leaving you and your device free to move with the ability to switch between the TabCam App, and other apps at anytime.

### Present and create rich, full lessons

Present live video of physical content and student work, or add content from other sources from anywhere in your room, while annotating, highlighting and manipulating curriculum from your tablet or laptop.

### Blended, Flipped and Common Core

TabCam not only digitizes content for Blended learning, but can instantly share recorded lessons to the cloud supporting Flipped curriculum. Real and digital interdisciplinary subject matter can then be combined to foster Common Core initiatives.

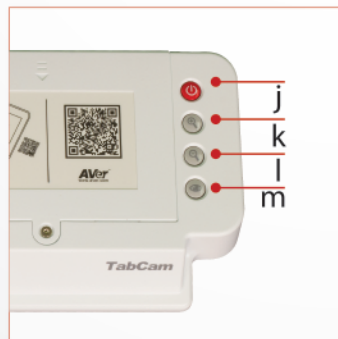

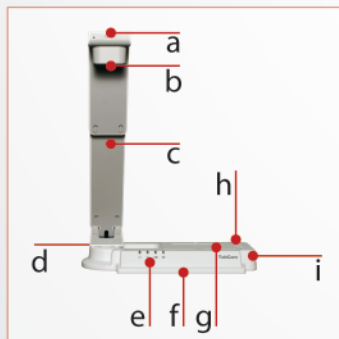

### Don't forget it, record it

Record your entire lessons including live video, annotation, supporting content and audio to be available for review, absent students, substitute teachers and more.

## Specifications

<b>Image</b>
