

# Release note

## Product : MD330U/MD330UI

- You need to press and hold [Menu] button on the RC to trigger OSD after FW 1.1.1027.0
- If firmware needs to downgrade, the oldest can only be rolled back to FW 1.1.1017.0
- If current firmware under 1.1.1016.0 (include) , must first upgrade the FW to 1.1.1017.0 , then update again to FW 1.1.1030.0 and above.

<b>FW version</b>	<b>1.1.1041.0</b>
Release date	2024/3/5
New feature	<p>1. <b>Support <a href="#">EPIC ECAL</a></b></p> <p>Camera IP URL for EPIC system would be <a href="https://ip/html/ecal.html">https://ip/html/ecal.html</a></p> <p>Based on the requirements of EPIC ECAL, we have preset an HTTPS certificate in the device and strongly recommend that customers replace HTTPS certificate with their own when using</p> 
Improvement	<p>1. <b>Improve Eyes Tracking</b></p> <p>Fix the tracking issue that occurs in Eyes Tracking under certain conditions.</p> <p>2. <b>Optimize UX on Web UI</b></p> <p>Buttons on the web interface will have color feedback when pressed.</p>

FW version	<b>1.1.1037.0</b>
Release date	2023/10/26
New feature	<p>2. <b>Support mosaic (pixelated) on face/body in RTSP for Privacy</b>  The camera can now auto detect "Faces" or "Bodies" in the view and mosaic on RTSP  WebUI &gt;&gt; Video &amp; Audio &gt;&gt; Mosaic on Stream &gt;&gt; Body/Full face</p>  <p>3. <b>Support Custom RTSP Settings</b>  WebUI &gt;&gt; Network &gt;&gt; RTSP Settings  RTSP Sample : <a href="rtsp://account:passwd@device_ip/rtsp_url">rtsp://account:passwd@device_ip/rtsp_url</a></p>  <p>4. <b>Support PELCO-D &amp; PELCO-P Camera Control Protocol (RS-232)</b>  5. <b>Now you can set the camera RC channel on WEB UI</b>  WebUI &gt;&gt; System &gt;&gt; Camera Selector</p>  <p>6. <b>Support more options to overwrite the setting when Importing Setting Data</b>  WebUI &gt;&gt; System &gt;&gt; Setting &gt;&gt; Import Setting Data  Check the [User Account] , [Network Setting] if you want to overwrite</p>

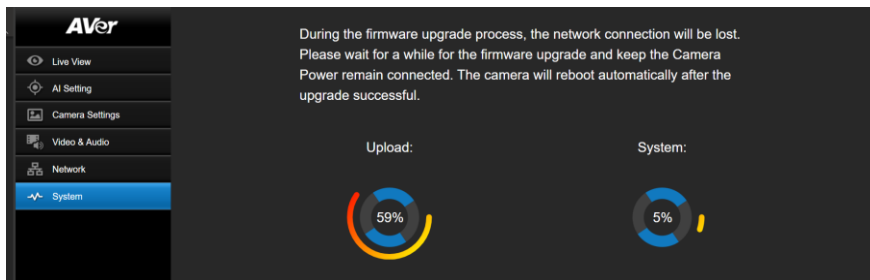

Improvement

3. **Improve auto focus in handhold mode**

Now, slight hand shaking will not trigger refocusing, which greatly reduce the AF hunting.

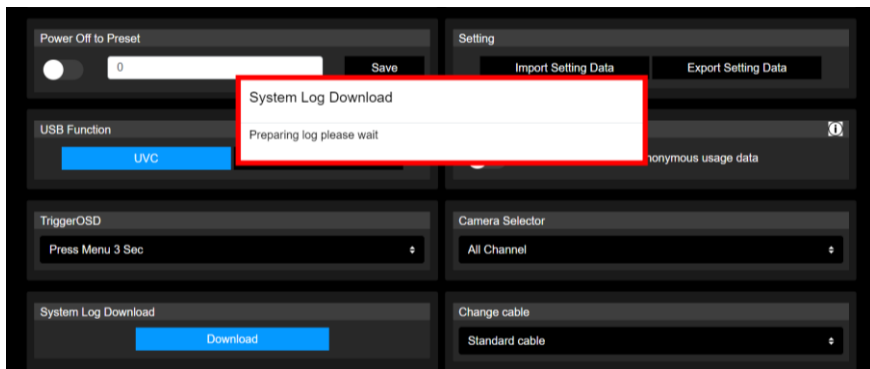

4. **Optimize the firmware update UI**

You can now clearly see the current progress of the update.

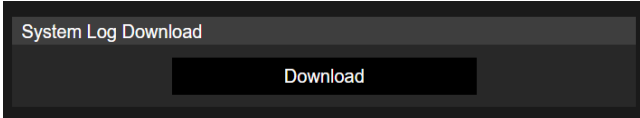

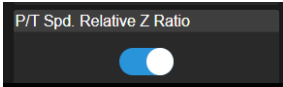

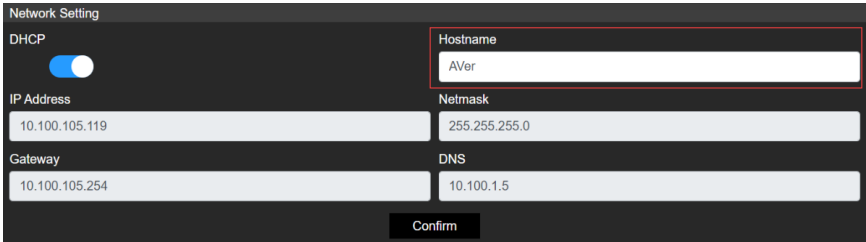

5. **Optimize user flow when download log**

A prompt window will pop up when the UI is temporarily frozen due to downloading logs.

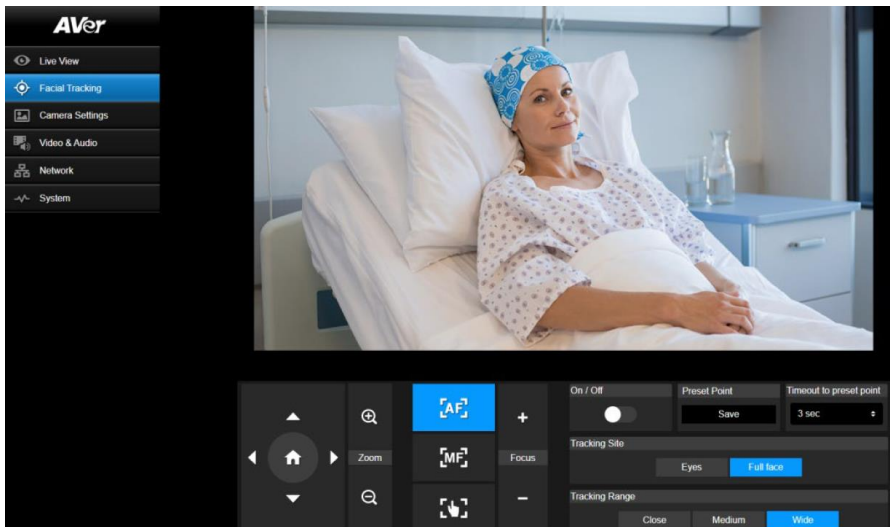

# Release note

Product : MD330U/MD330UI

<b>FW version</b>	<b>1.1.1035.0</b>
Release date	2023/7/25
New feature	<ol style="list-style-type: none"><li><b>Support Log download from web UI</b> Web UI &gt;&gt;&gt; System &gt;&gt;&gt; System Log Download &gt;&gt;&gt; click [Download] </li><li><b>Now Pan/Tilt ratio would auto adjust depend on current Zoom ratio by default</b> This change would make the operate handier and avoids over pan/tilt you can ON/OFF this function in Web UI &gt;&gt;&gt; Live View &gt;&gt;&gt; P/T Spd. Relative Z Ratio </li><li><b>Support Hostname on MSFT DNS server for better device management</b> web UI &gt;&gt;&gt; Network &gt;&gt;&gt; Hostname, set the camera hostname and click [Confirm] </li></ol>
Improvement	<ol style="list-style-type: none"><li><b>Improve the performance of AEC and NR</b> We recommend all users with bidirectional dialog needs update to this version.</li><li><b>Improve system stability and auto focus speed.</b></li><li><b>Set camera to autofocus (AF) when Facial/Eyes Tracking is enabled.</b></li><li><b>Solve occasional reboot in cruise mode over long time.</b></li></ol>

# Release note

Product : MD330U/MD330UI

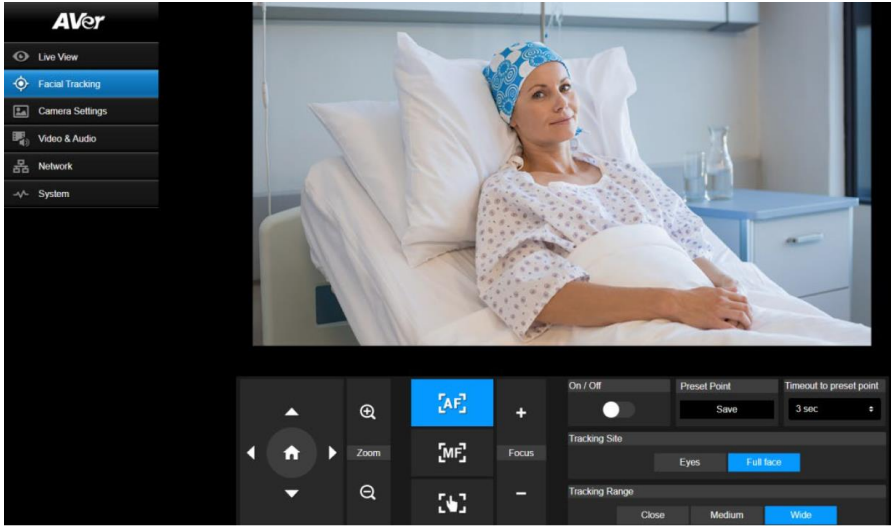

FW version	1.1.1032.0
