OPERATING SYSTEMS	<p>Supported Windows editions:</p> <ul style="list-style-type: none">• Windows 7• Windows 8.1• Windows 10• Windows 11 <p>Supported macOS edition:</p> <ul style="list-style-type: none">• macOS 10.14 and later <p>Supported MTR device:</p> <ul style="list-style-type: none">• Windows OS 2004 above

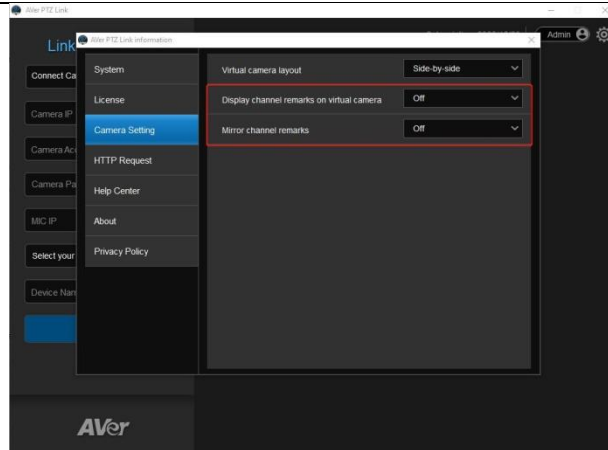

<p>1.3.1045.0</p> <p>Release date:</p> <p>Jan 7th, 2023</p>	<p>New Features</p> <ul style="list-style-type: none"> • Supports PTZV2 Camera Series. • Supports Audio Technica ATND1061DAN. • Supports camera auto adjust in auto position side-by-side mode. • Supports 30 days of license key type. • Support CGI Command to enable/disable Group. • Support data setting export/import crossing Windows and MacOS. <p>Improvements</p> <ul style="list-style-type: none"> • Improve time out after 5 secs to stop virtual cam • Improve virtual camera performance. <p>Known Issues</p> <p>There is recommended system requirements to have better user experience for side-by-side virtual cameras features</p>
<p>1.3.1040.0</p> <p>Release date:</p> <p>October 3 , 2022</p>	<p>New Features</p> <ul style="list-style-type: none"> • Supports PTZ Link quick control through webpage <ul style="list-style-type: none"> • Quick control includes enable/disable all PTZ Link groups

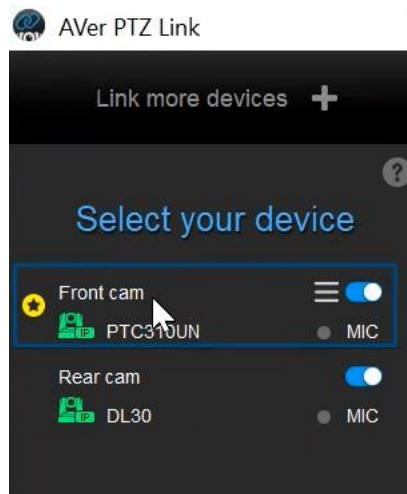

- Supports Side-by-Side output layout of PTZ Link virtual camera
 - Settings/Camera Setting/Virtual camera layout

- Supports Channel Remarks display on Virtual Camera
 - To enable this, go to Settings/Camera Setting, see below.
 - You can also enable Channel Remarks Mirror if needed.

- Supports Priority on groups.

Improvements

- Support PTZ Link running on MTR with non-admin account, including the virtual camera of PTZ Link is also provided.
- Optimized virtual camera streaming.

Bug Fixes

- Fixed the issues of PTZ Link start failure when running on Zoom Rooms.

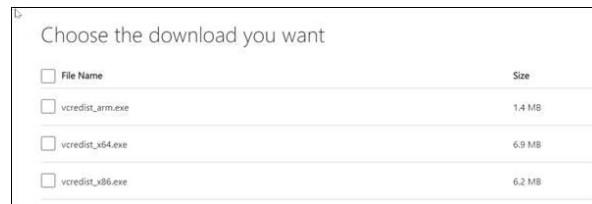

Known Issues

- In certain flavors of the Windows Operating System, the AVer Virtual Camera option may not be selectable from your video conferencing software, you may need to check if the Microsoft Visual C++ 2013 Redistributable (x64) is properly installed.

If not, you can download and install “vcredist_x64.exe” from the link

<https://www.microsoft.com/en-US/download/details.aspx?id=40784>

Then, try steps as below:

- 1) Run command prompt with administrator privileges, change **working directory** to **C:\Program Files (x86)\AVer Information Inc\AVerCameraSettingTool**, then execute “`regsvr32 AVerVCam64.dll`”
- 2) Re-launch the video conferencing software, then you should be able to find AVer Virtual Camera

Note: This scenario and workaround does not apply to the use case of MTR device.

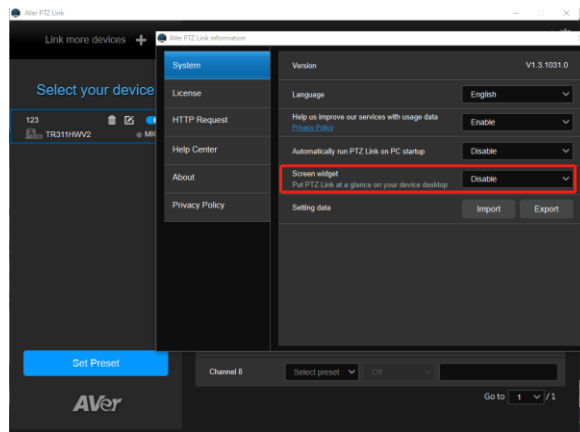

1.3.1034.0

Release date:

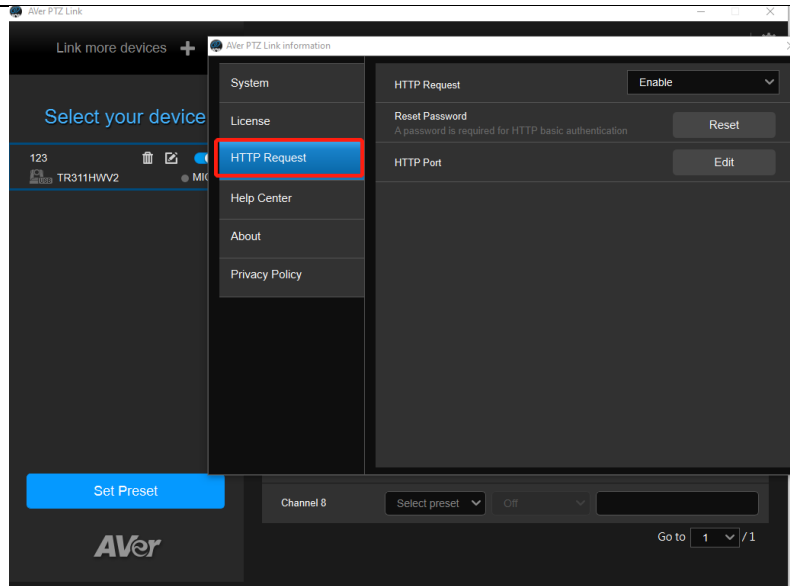

July 27th, 2022

New Features

- Supports Shure MXA920.
- Supports Yamaha RM-TT and RM-CR DSP.
- Supports up to 25 groups on PTZ Link (Premium version only).
- Supports Screen Widget (Compatible with Zoom Rooms).
 - To enable this, go to Settings/System/Screen widget.
 - Once enabling this feature, PTZ Link will minimize to a floating button and appear in front of your desktop, which supports pausing, resuming PTZ Link, and back to previous setting page.

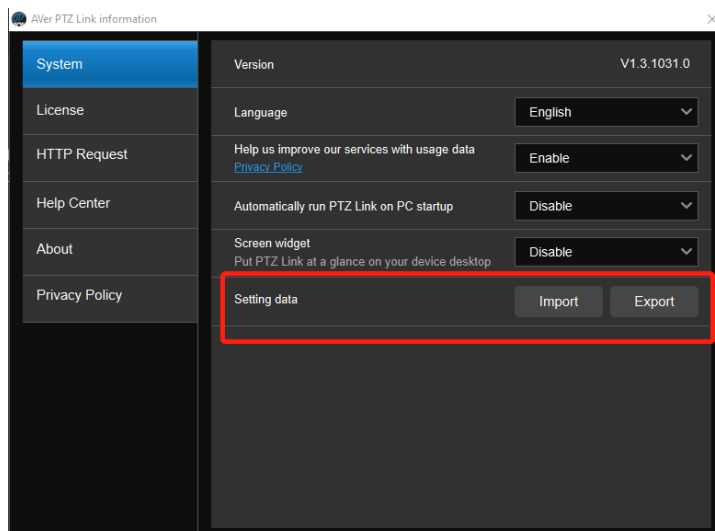

- Supports HTTP command which provides pausing and resumption of all groups on PTZ Link remotely.

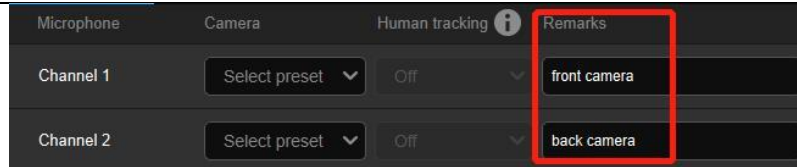

Improvements

- Improved virtual camera switching.
- Supports camera view when configuring on Camera Setting Tool.
- Disables voice tracking when microphone is set to “muted All”.
- Supports import/export setting data.

- Supports remarks of each channel.

- When connecting PTZ Link with Sennheiser TCC2, PTZ Link won't capture the channel 8(Azimuth 315°) when feeding a far-end signal into TCC2 via Dante.

Notes

- To perform best performance of virtual camera, the AVer virtual camera resolution is limited to minimum 720p.

Known Issues

- When enabling human tracking on PTZ Link, user may experience random expected camera zoom in/out.
 - This will be fixed in camera firmware, reference the following list of fixed versions:
 - PTC310/ PTC310N/ PTC310U/ PTC310UN/ PTC330/ PTC330N/ PTC330U 0.0.0000.45 and later
 - PTC330UV2/PTC320UNV2/PTC320UV2/PTC310UV2/PTC310HWV2 0.1.0000.35 and later
- In scenarios when switching to Zoom Rooms from Zoom Rooms Admin, PTZ Link may not be restarted.
 - The keyboard short **Alt+Tab** resolves the issue. (A fix will be provided in the next version.)
- When using Zoom Rooms, after tapping sections out of the PTZ Link GUI, PTZ Link user interface will disappear.
 - To resolve this, use **Alt+Tab** to switch back to PTZ Link. (A fix will be

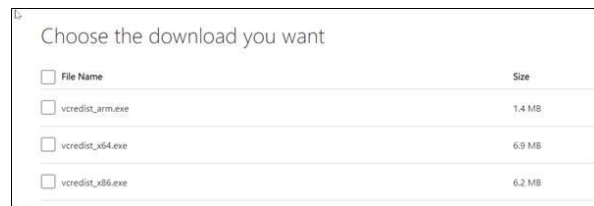

provided in the next version).

- In certain flavors of the Windows Operating System, the AVer Virtual Camera option may not be selectable from your video conferencing software, you may need to check if the Microsoft Visual C++ 2013 Redistributable (x64) is properly installed.

If not, you can download and install “vc redistrib_x64.exe” from the link

<https://www.microsoft.com/en-US/download/details.aspx?id=40784>

Then, try steps as below:

- 3) Run command prompt with administrator privileges, change **working directory** to **C:\Program Files (x86)\AVer Information Inc\AVerCameraSettingTool**, then execute “regsvr32 AVerVCam64.dll”
- 4) Re-launch the video conferencing software, then you should be able to find AVer Virtual Camera

Note: This scenario and workaround does not apply to the use case of MTR device.

- PTZ Link does not support MTR non-admin account.
 - This will be supported by the next PTZ Link release.
- PTZ Link virtual camera (premium version) does not support MTR.
 - This will be supported by the next PTZ Link release.

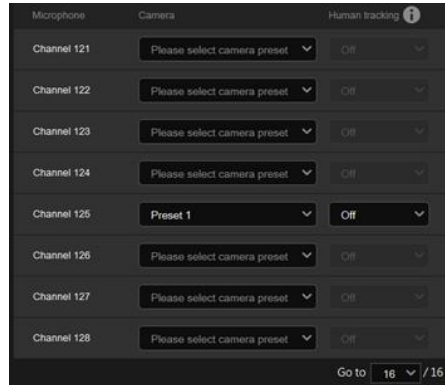

V1.3.1025.0

Release date:

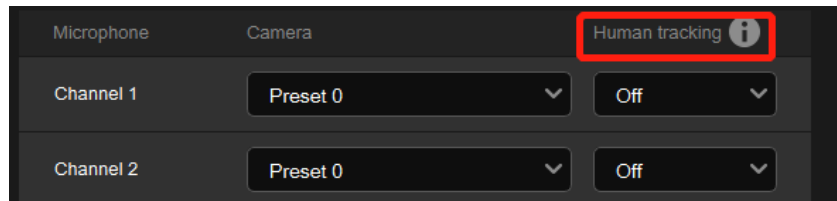

April 1, 2022

New Features

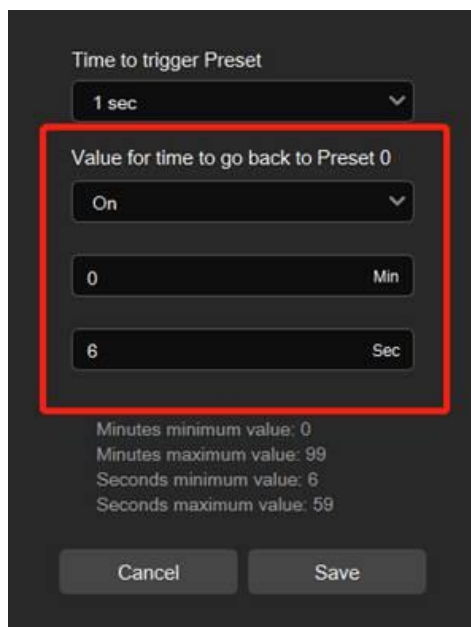

- Supports Yamaha RM-CG ceiling array microphone.
- Supports Shure MXCW series.
- Supports up to 128 channels within one group on PTZ Link.

- Supports “Human Tracking” on/off on PTZ Link (Premium version).

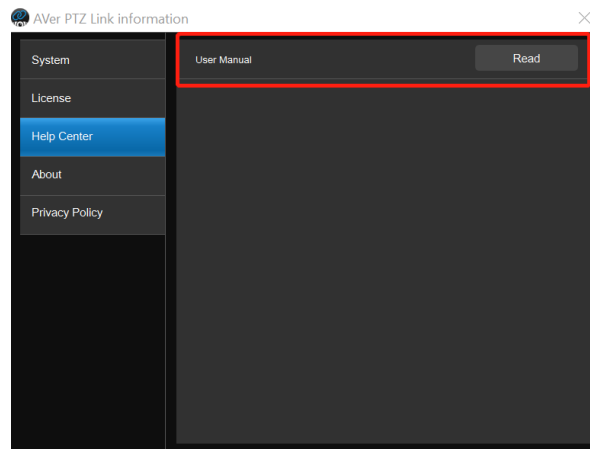

- Supports manual input of “time to go back to Preset 0”.

Improvements

- Lower the video latency when using Virtual Camera on PTZ Link.
- Fixed the issue that virtual Camera might freeze if camera experienced reconnection during streaming.
- Supported online user manual directed from Settings/Help Center.

Known Issues

- When connecting PTZ Link with Sennheiser TCC2, PTZ Link may still capture the channel 8(Azimuth 315°) when feeding a far-end signal into TCC2 via Dante.
 - This will be fixed in the next version.
- PTZ Link does not support MTR non-admin account.
- PTZ Link virtual camera does not support MTR.

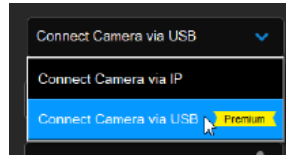

V1.3.1021.0

Release date:

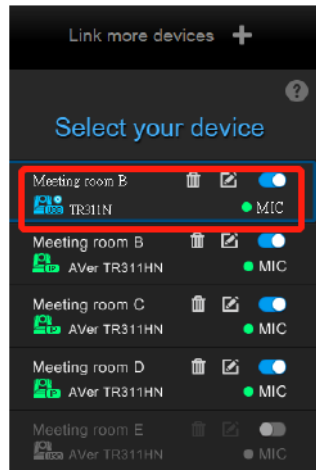

February 15, 2022

New Features

- Supports USB connection with camera (PTZ Link Premium version and WIN OS only)

- Supports virtual camera through USB connection (PTZ Link Premium version and WIN OS only)

	Virtual camera is sent to the third party program.
	Virtual camera is enabled.

NOTE: The camera icon will be BLUE and equipped with a blinking dot when virtual camera is enabled and sent to third party program.

- Supports subscription of virtual camera which includes key code and 60-day free trial
- Support of automatically startup of PTZ Link when PC boots up.
- Included Usage Data.

Bug Fixes

- N/A

Known Issues

	<ul style="list-style-type: none"> • Virtual Camera might freeze if camera experienced reconnection during streaming. <ul style="list-style-type: none"> • Issue will be resolved when restarting PTZ Link software and it shall be fixed in the next release of PTZ Link. • User may notice a certain video latency when using Virtual Camera of PTZ Link. <ul style="list-style-type: none"> • This latency issue will be optimized in the next release of PTZ Link
