Overview

Q-SYS™ Designer software enables users to create designs for native Q-SYS™ Platform system and supports the integration of the greater Q-SYS™ ecosystem. Download **Q-SYS™ Designer** here:

https://www.qsys.com/resources/software-and-firmware/q-sys-designer-software/.

With **AVer Q-SYS™ Plugin for PTZ Cameras**, operating PTZ control is fast and instinctive. The preset points and the tracking control provide you smooth and effortless video conferencing and streaming experience.

System Requirement

For **Q-SYS™ Designer** system requirements, please visit: https://help.qsys.com/

Scripting License

All plugins when loaded to Q-SYS system requires a Q-SYS Scripting License and will not function without it. For more details, please visit:

https://help.qsys.com/q-sys_9.8/#Core_Manager/Core_Management/Licensing.htm?Highlight=scripting

About Q-SYS™

Since its inception in 2009, Q-SYSTM has been architected to deliver seamless, unified, and scalable human experiences. With established solutions across Corporate, Education, Hospitality, Venues & Events, Cinema, Government, Healthcare, and Transportation, Q-SYSTM raises the bar for both live and virtual experiences by uniting hardware and software partners, developers, and creators. Headquartered in Costa Mesa, CA, Q-SYSTM has regional offices in Sinsheim (Germany), Boulder (Colorado), Bengaluru (India) and Hong Kong, along with training, market development, sales/support offices and distribution facilities located throughout North and South America, Europe, Asia and the Middle East. For more information, please visit: https://www.gsys.com/about-us/.

Getting Started

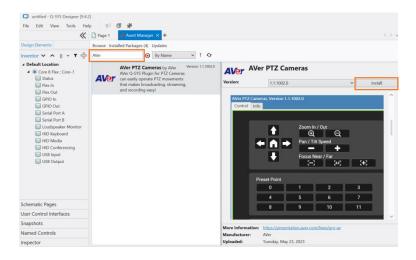

Install Q-SYS[™] Designer

- 1. Follow the on-screen guide to install **Q-SYS™ Designer** on your computer.
- 2. Double click on the icon 🗩 to launch the app.

Install Q-SYS™ Plugin for PTZ Cameras

To install Q-SYS™ Plugin for PTZ Cameras in Q-SYS™ Designer, you can:

- Install from Q-SYS™ Designer Asset Manager:
 - Open Q-SYS™ Designer > click Tools in Main Menu > Show Asset Manager.
 - Type "AVer" in the searching box > select AVer PTZ Cameras > click Install.
 - If success, you will see PTZ Cameras plugin under Plugins > User >
 AVer Information in Q-SYS™ Designer.

• Install from your computer:

 Download Q-SYS[™] Plugin for PTZ Cameras file to your computer from AVer Download Center.

(https://www.aver.com/download-center)

- 2. Double click the downloaded file to install the plugin.
- If success, you will see PTZ Cameras plugin under Plugins > User >
 AVer Information in Q-SYS™ Designer.

Uninstall Q-SYS™ Plugin for PTZ Cameras

To uninstall Q-SYS™ Plugin for PTZ Cameras, you can:

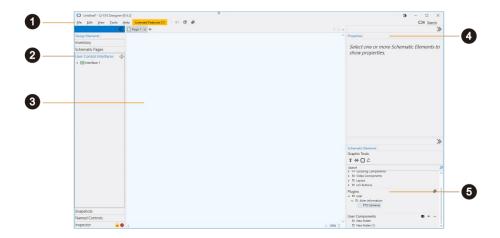

Remove from Asset Manager:

Find AVer PTZ Cameras in Asset Manager > click Remove.

- Delete from computer:
 - Enter location path in your file explorer:
 C:\Users\[Account]\Documents\QSC\Q-SYS Designer\Plugins to see
 Q-SYS Plugin for PTZ Cameras file.
 - 2. Hover over the file and right click your mouse > **Delete**.

Q-SYS™ Designer Interface

1. Main Menu:

Provide quick access to commands and functions.

2. User Control Interfaces (UCI):

Create workspace to design and edit PTZ camera control panels.

3. The Schematic:

Drag and drop files to schematic for further views and edits. You can have more than one page of schematic diagrams.

4. Properties:

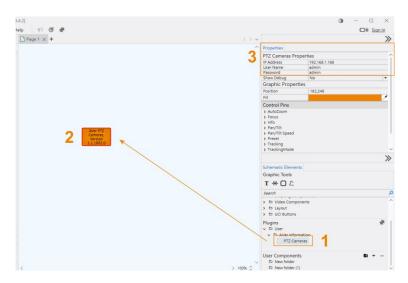

Check and edit the properties of selected components.

5. Plugins:

Provide integration of licensed third-party plugins.

- Asset Manager: Include installed plugins downloaded from Asset Manager.
 - To open Asset Manager, click the **Puzzle** icon.
- User: Include manually installed plugins by users (with .qplugx files) and legacy plugins bundled with previous versions of Q-SYS™ Designer.

Configure Q-SYS™ Plugin for PTZ Cameras

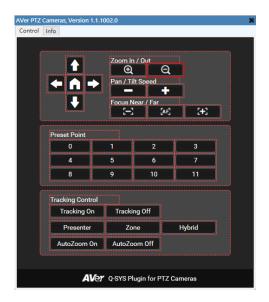

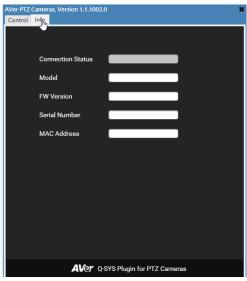

Insert Q-SYS™ Plugin for PTZ Cameras to the Schematic:

- Double click on User file under Plugins section > double click AVer
 Information > PTZ Cameras.
- 2. Drag PTZ Camera plugin and drop it in the Schematic.
- 3. Enter **PTZ Camera Plugin Properties** including IP Address, User Name and Password to connect with your AVer PTZ camera.

Select Configurable Components:

- Double click on the AVer PTZ Camera plugin to show configurable components.
- Click and drag over in the component window to select AVer Camera control panel components. The chosen components will be highlighted with red border.
- 6. Click **Edit** in Main Menu > **Copy**, or press **Ctrl + C** to copy.

Camera Control Panel

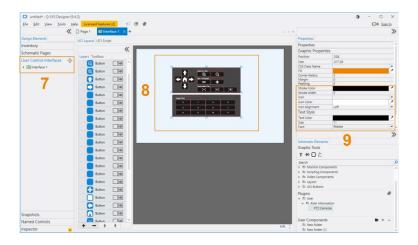

Camera Info

Configure Components in User Control Interfaces(UCI)

- 7. Click **User Control Interfaces** > click the **Plus** icon to create a UCI.
- Click Edit in Main Menu > Paste, or press Ctrl + P to paste the copied AVer Camera control panel components to the Schematic.
- 9. To customize control panel components, you can:
 - Click and drag the bounding box to resize.
 - Double click text box to rename.
 - Click the icon and change the icon color in Properties.
 - Right click on your mouse to open context menu for more commands.

To remove components:

- Select the component from the Schematic, or select from Layers, press
 Del on your keyboard.
- Select the component, click Edit in Main Menu > Delete.

Emulate Connection and Control

After customizing AVer Camera control panel components, you can run tests by emulating the connection.

To emulate connection and control:

- 1. Click File in Main Menu> Emulate.
- 2. When you see a pop-up window marked "Design License Requirements Have Changed", click **OK** to continue.
- When the connection is completed, click the control panel buttons to control your PTZ camera.

[Note]

- When successfully connected, all the icons will turn white and the buttons are clickable; if not, disconnect the emulation and check **Properties** in **Page**.
- You can't customize the panel components or change any settings until you disconnect emulation. To disconnect, click File in Main Menu > Disconnect.

AVer Camera Plugin Control Panel

1. PTZ and Focus

Item	Description
Direction Buttons and Home Button	 Click direction buttons to adjust camera angle. Click Home button to go back to the default camera position.
Zoom In/Out	Click the Plus/Minus buttons to zoom in/out.
Pan/Tilt Speed	Use the Plus/Minus buttons to adjust the pan and tilt speed of the camera.
Focus Near/Far	 Click on the AF icon button to switch from auto focus to manual focus. Click on Minus/AF/Plus icon buttons to focus on near/far object/area.

2. Preset Point

Item	Description		
Preset Point	Click on a number to load a		
	pre-configured preset point on UCI.		

3. Tracking Control

Item	Description
Tracking On/Off	Click the buttons to switch on/off tracking mode.
Presenter/Zone/Hybrid	 Click Tracking On to select a tracking mode: Presenter Mode: The camera tracks the presenter. Zone Mode: The camera only tracks certain zone. Hybrid Mode: The camera both tracks the presenter and focuses on the certain zone.
Auto Zoom On/Off	Click the buttons to switch on/off Auto Zoom. • Auto Zoom is only available under Presenter and Hybrid Mode. The camera will track the presenter's movement to zoom in and out automatically.

Save to Core and Run Connection

When finished configuring the control panel, save your design on the core processor to run connection and control AVer PTZ Cameras on devices with compatible software.

To save and run connection:

Click File in Main Menu > Save to Core & Run.
