

## AVer Pro-AV Camera Bracket Options

January 2022

There are several options for the AVer Pro-AV line of cameras to be mounted, we will cover some popular options for the AVer Camera Brackets and AVer Cameras. All of the AVer Pro-AV cameras have a ¼ x 20 mount, located on the bottom of the camera.

There are four main groups of Pro-AV AVer cameras that we will discuss:

- PTZ310, PTZ330, PTZ310N, PTZ330N line of Cameras
- TR3XX line of Cameras
- TR3XXV2 line of Cameras
- TR530 and TR320 line of Cameras (\*These cameras can NOT be installed inverted)

| Camera Mounts   | SKU       | Description                                    | Compatibility                                   | MSRP     |
|---|-----------|--|---|----------|
|  | PTMLTWC01 | AVer Camera Mount<br>L-Type for Wall & Ceiling | TR320, TR530                                    | \$108.00 |
|  | COMSVCMNT | AVer Camera Mount<br>L-Type for Wall           | PTZ and TR Series                               | \$99.00  |
|  | PTMLTCM01 | AVer Camera Ceiling Mount                      | PTZ Series , TR311,<br>TR311HN, TR313,<br>TR333 | \$89.00  |

**\*Note:** The PTMLTCM01 Ceiling Mount is included with the TR3XX/TR3XXV2 series of cameras.

### Camera Handling

It is IMPORTANT to note that while handling the camera, grab the camera by the base, do NOT use the camera lens holder as a handle, as damage to the camera motors could occur.

## PTZ310/330 Series and TR3XX Series of Cameras

The PTZ line and TR3XX line of cameras can be wall mounted and ceiling mounted. The Wall Mount can also be used to install the camera inverted.

PTZ Camera

(1) ¼ x 20, 6.5mm

TR3XX Camera

(3) ¼ x 20, 6.5mm

**\*Note:** Do NOT use screws longer than 6.5mm, as damage could occur to the internal motherboard.

### Wall Mount L-Type

**Part Number:** COMSVSMNT

This bracket can be used to mount the camera in 1 of 2 ways, Shelf and Inverted.

#### Shelf

## PTZ310/330 Series and TR3XX Series of Cameras (continued)

### Inverted

## PTZ310/330 Series and TR3XX Series of Cameras (continued)

### Ceiling Mount

**Part Number:** PTMLTCM01

**\*Note:** This bracket can be used with the PTZ310/330(N), TR3XX, and TR3XXV2 cameras.

**\*Note:** The PTMLTCM01 bracket is included with the TR3XX and TR3XXV2 cameras.

### Ceiling installation

|   |  |
|---|--|
| <p>1. Secure the mount bracket on the ceiling.<br/>Screw: 4 screws, M4 x 10mm(Not Included in the package)</p>   | <p>2. Install the mount bracket on the camera.<br/>Screw: 1 screw, 1/4"-20 L=6.5mm(Included in the package)</p>  |
| <p>3. Slide the mount bracket with the camera into the mount bracket which secured on the ceiling.</p>  <p>[Note] Connects necessary cables after sliding the camera into the mount bracket.</p> | <p>4. Secure the camera with screws.<br/>Screw: 3 screws, M3 x 6mm(Included in the package)</p>                 |

### Package Contents

### Dimensions

**\*Note:** Do NOT use screws longer than 6.5mm, as damage could occur to the internal motherboard.

## PTZ310/330 Series and TR3XX Series of Cameras (continued)

### AVer Camera Wall Mount for PTZ Series

Wall Mount Part Number: PTMLTWA01

This bracket can be used to mount the camera in a shelf mode.

180mm W x 215mm D x 100mm H

## TR3XXV2 Cameras

These cameras have a slightly different footprint than the new TR3XX cameras, but the same brackets can be used.

**\*Note:** The vertical dimension is slightly taller than the TR3XX cameras, if you are going to use an In Wall type bracket, make sure you have at least 9-1/2" of clearance vertically. Cameras will go through it's PTZ routine upon power up or reboot, checking that it has the full range of motion for Pan and Tilt.

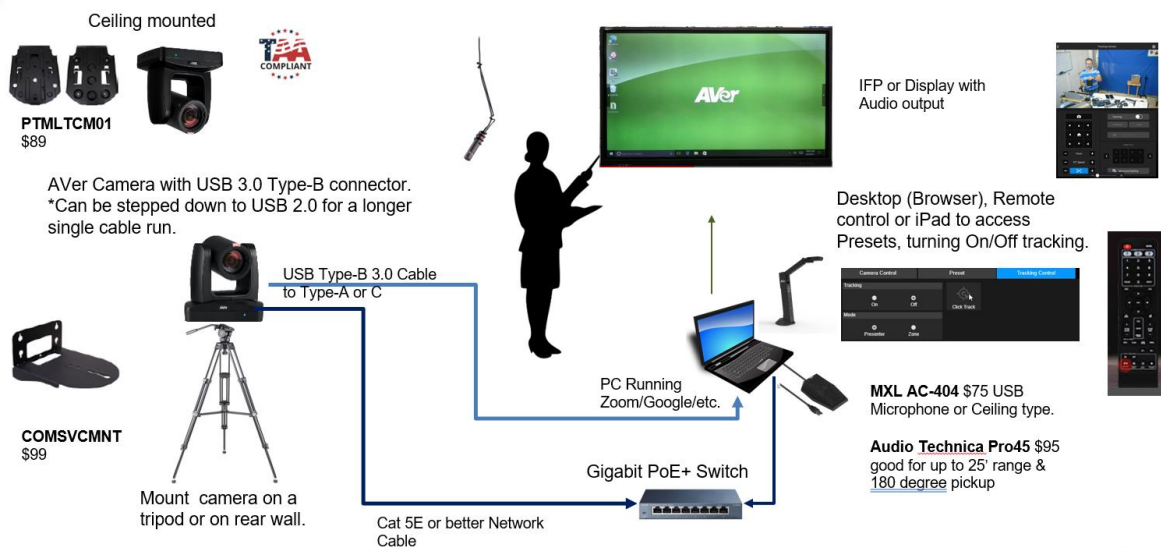

**\*Note:** Do NOT use screws longer than 6.5mm, as damage could occur to the internal motherboard.

## TR3XXV2 Cameras (continued)

### Potential TR313V2 Setup, PoE+, 18Watts

17

## TR530 and TR320 Cameras

The TR530 and TR320 cameras can ONLY be installed vertically, they can NOT be installed inverted. The following (2) AVer camera brackets can be used with these cameras.

### TR530

(2) ¼ x 20, 6.5mm

### TR320

(2) ¼ x 20, 6.5mm

**\*Note:** Do NOT use screws longer than 6.5mm, as damage could occur to the internal motherboard.

## Wall Mount Part Number: COMSVSMNT

**\*Note:** The wall bracket cannot be used in inverted mode with the TR530/320 cameras.

### Shelf

## AVer Wall / Ceiling / Pole Mount

Ceiling / Wall Mount Bracket Part Number: PTMLTWC01

Wall Mount

Ceiling Mount

Pole Mount

## TR530 and TR320 Cameras (continued)

Mount bracket dimension (in mm)

Top view

Side view

3. Secure the camera on the mount bracket with the screws.

**[Note]** screw size: 1/4"-20L=6.5mm (not included in the package)

## Potential Classroom Configuration

Can be Ceiling hung, but NOT Inverted.  
**PTMLTWC01**

Ceiling Mount

TR530 Camera does NOT have a USB connection on it.  
Use either an SDI to USB converter or HDMI to USB converter.

SDI cable can go upto 300ft.  
HDMI cable can go upto 50ft.  
\*Both without boosting.

**COMSVCMMT**  
\$99

AC Power Needed.

Mount camera on a tripod or on rear wall.

Long HDMI or Long SDI cable to the Converter, Type C to Type A

Cat 5E or better Network Cable

SDI or HDMI cable

USB cable

Gigabit Switch

PC Running Zoom/Google/etc.
